

Partner Roadmap and Feature Status

A plain-language view of what is live, assisted, and under construction.

Available now

- [] Business application, profile record, verification, and package assignment.
- [] Business campaign, offer, creative, placement, and partner-document records.
- [] Admin review, Work Queue notifications, audit records, and event-based totals.
- [] Controlled Partner Center with document status, visibility, and expiration tracking.

Available with VYBE assistance

- [] Campaign planning, creative preparation, placement scheduling, and partner reporting.
- [] Curated creator or community partnership exploration.
- [] Controlled external document links while native file storage is being connected.

Under construction

- [] Business AI assistant for campaign concepts, creative drafting, and asset preparation.
- [] Self-service business creative builder and submission workflow.
- [] Automated delivery across approved VYBE surfaces.
- [] Partner-facing analytics exports and AI explanations.
- [] Validated external conversion integrations and broader creator matching.

Promise policy

VYBE markets only the features and service levels currently deliverable. Planned capabilities are identified as under construction and receive no guaranteed release date until approved.
